

NOTICE TO MEMBERS

Members Update re - COVID-19

The Club was informed late yesterday afternoon that a Member was showing mild symptoms of COVID-19 and is now in Hospital being cared for. We can confirm that the member last used the Club on Thursday 13th February 2020, some 25 days ago. We are aware that immediate family members were placed in quarantine last night as a precautionary measure. We are also aware that the family members had some limited use of Club facilities last week including use of the Sports Theatre Monday to Friday (in the mornings), the Fitness Centre in the early morning of Wednesday 4th March, a Tennis Court on Monday 2nd March (in the afternoon) and Saturday 7th March (in the morning) and on the same day briefly being in both the Children's Playroom in the Family Lounge area and the Captain's Bar.

This morning we have contacted both the Department of Health (DOH) and the Centre for Health Protection (CHP) and having explained the containment measures we already have in place for COVID-19 (and the fact the Member has not been in the Club for 25 days) the DOH and CHP were of the opinion that these measures were more than satisfactory. We further noted to them that increased deep cleaning and fogging of the 1/FI and 3/FI of the Club had been undertaken as well as the lifts.

As of this morning as a further precautionary measure we have closed off both Children's Playrooms but the rest of the Club's facilities remain open. We will continue to carry out our already strict cleaning procedures for all areas of the Club and where possible look to enhance them.

Members are reminded to act at all times in a responsible manner and in this respect, if you are showing any signs/or symptoms of flu/fever then you should seek medical assistance and not look to access the Club before being given the all clear.

We thank you for your understanding at this challenging time and we will look to update you if we receive any further information from the DOH or CHP.
